Energy Management

Mr. Delli Paoli is available to help your team optimize the energy consumption and related costs incurred by your business.

Mr. Delli Paoli has a passion for all things involving energy consumption and conservation, including green initiatives and alternative energy sources. Throughout his corporate career Alex served on committees to reduce energy consumption. Design efforts under his guidance always considered energy efficiency and life cycle costs. A high point in his career was the opportunity to be a corporate energy manager:

8/88 - 4/91: Corporate Energy Manager. Overseer of all corporate energy use. Corporate energy budget at the time was \$60MM. Duties included supervision of three subordinates, rate intervention and negotiation as opportunities arose, and energy surveys at facilities worldwide. Hosted an annual two-day worldwide energy conference to promote energy conservation and cost reduction
